***Status of the Claims***

Claims 18-51 have been presented for examination.

***Election/Restrictions***

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 18-23, 31, 33-40, 48 and 50-51, drawn to a method of assaying and/or evaluating respiratory inflammation by detecting MMPs (immunologically).

Group II, claim(s) 24-30, and 41-47 drawn to an immuno test strip for detecting MMPs.

Group III, claim(s) 32, 34, 49, 51, drawn to a method of making an immuno test strip for detecting MMPs.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: The alleged special technical feature that links the three inventions groups is an antibody or binding agent that recognizes MMPs. This special technical feature cannot be said to provide a contribution over the art as it is anticipated and therefore lacks novelty over, for example, Reference D1 and D2 identified in the International Preliminary Examination Report as well as WO 9410208 cited in the Search Report.

Art Unit: 1651

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant should note that many of the claims are not written in acceptable US format.
